Dataset statistics	10

1. Executive Summary

This report analyzes **live_categorical.csv** (120 rows, 4 columns) .

Key verified findings

- The original dataset contained 0 missing value(s) and 0 duplicate row(s), which have since been cleaned.
- No trained model was available for this report.

Top recommendations

- No verified model-driven recommendations are available for this report.

2. About the Dataset

`live_categorical.csv` contains 120 rows and 4 columns.

Column dictionary

Column	Type	Missing	Notes
Event Id	Identifier	0.0%	
Region	Category	0.0%	most common: South
Category	Category	0.0%	most common: Beta
Channel	Category	0.0%	most common: Web

3. Data Quality & Cleaning

Original dataset quality (as uploaded)

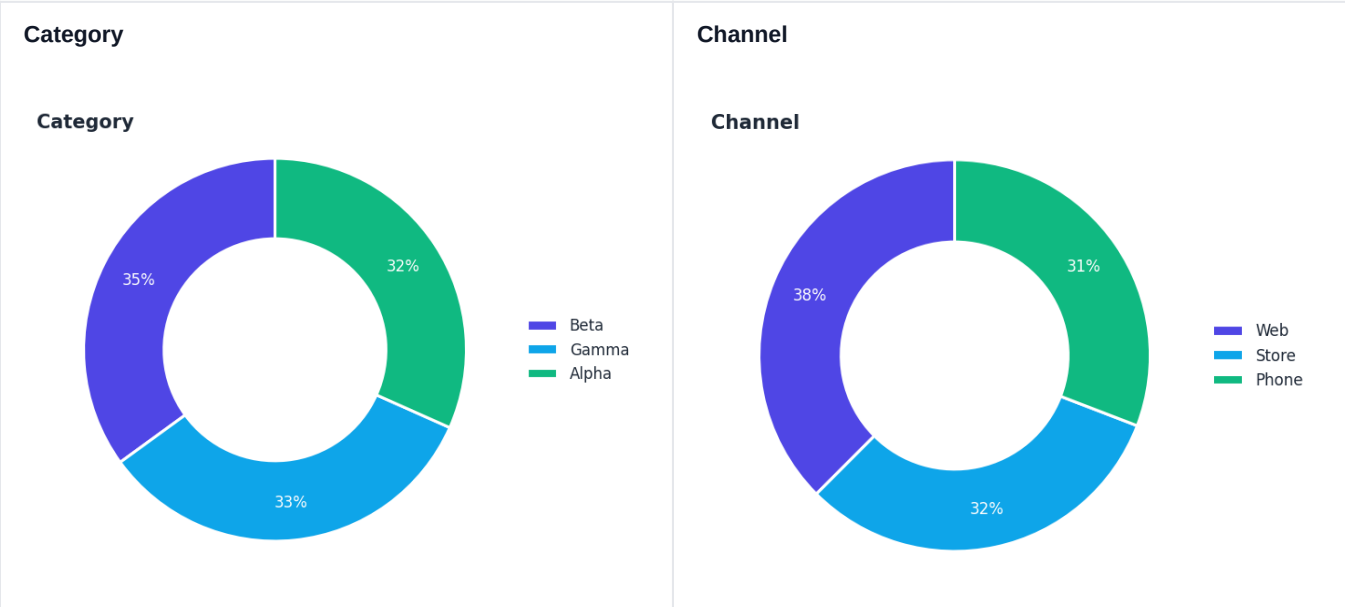

Total rows	Missing cells	Duplicate rows	Issues detected
120	0	0	0

Cleaning performed

The dataset was marked cleaned, but no specific actions were logged.

4. Key EDA Findings

Total Rows	Missing Cells	Duplicate Rows
120	0	0

9. AI Business Insights AI-generated

AI insights are unavailable right now (gemini: Gemini rate limit exceeded — too many requests. Try again shortly.; ollama fallback: The AI service is currently unavailable.). The rest of this report contains verified analytical results only.

10. Limitations

- This dataset has only 120 rows — results and model performance should be treated as preliminary; a larger sample would give more reliable estimates.
- Model predictions are estimates based on historical patterns and may not hold if underlying business conditions change. They should inform, not replace, domain expertise.

11. Appendix

Dataset statistics

Statistic	Value
Rows	120
Columns	4
